

JOB FAIR 101

Hire Dynamics regularly holds job fairs for people interested in working with us. We want to help you be as successful as possible, so here's a breakdown on how to ace our job fair and walk away with a great opportunity!

WHAT TO BRING

Bring several copies of your resume (double-check for typos) and proper identification.

BE ON TIME

Our job fairs usually last a few hours, but the earlier you arrive, the better chance you'll have to interview with us. It's a good idea to check directions the day before and account for traffic congestion.

DRESS APPROPRIATELY

No need to dress in a suit and tie or even business casual, but your clothes should be clean and appropriate for the job you're looking for.

BE READY TO TAKE NOTES

You'll want to jot down what you and a recruiter talk about, so bring a pen and paper or take notes on your phone. If you do land a position, be sure to write down critical first-day details.

FILL YOUR JOB APPLICATION OUT AHEAD OF TIME ON THE WORK4HD APP

Even if you've already applied with us via a job posting on Indeed or ZipRecruiter, you still need to fill out the application on the Work4HD app. If you don't fill the application out beforehand, you can do so on your phone while at the fair. It should take you about 10 minutes.

WHAT TO EXPECT

You'll speak with a friendly and trained staffing specialist who will ask questions about your job interests, experience, compensation needs and skills. Then, the staffing specialist will walk you through our current openings and you two will discuss which ones may be a good fit.

If there is a match, you and the staffing specialist will immediately have an interview to talk specifics of the job. Expect to be at the job fair for 30 minutes to an hour.

Oftentimes, Hire Dynamics can place you in a job right away, even starting as soon as the next day!
